**DETAILED ACTION**

1. This communication is in response to applicant's paper filed on 9/22/2008.

***Allowable Subject Matter***

3. Claims 1, 4-28, 31-60 are pending and have been allowed.

The following is an examiner's statement of reasons for the indication of allowable subject matter allowance:

Independent claims 1, 28 and 57 and their dependent claims 4-27, 31-56, and 58-60 are allowed because the closes prior art references of US 6,584,451 (Shoham et al.), US 6,012,046 (Lupien et al.) and US 6,892,185 (Van Etten et al.) and prior art of record in any combination failed to teach or render obvious to one of ordinary skill in the art, a method of:

(e) capturing market data from market transactions and using the market data to automatically predict costs of attribute states in hypothetical transactions by steps comprising:

(i) recording the request and offer data, along with the transaction price and quantity, for the committed transactions, and for other transactions that scored sufficiently well, and for requests and offers that were not matched in the market;

(ii) inferring market value relationships from other data sources, such as sellers' advertisements, and or buyers' requests for proposals;

(iii) using of mathematical function approximation techniques for constructing market value functions that describe the relationship between price and the states of various intrinsic or extrinsic attributes in a hypothetical market;

(f) automatically joining buyers' requests in a consortium by steps comprising:

(i) forming the best partition of the buyers' requests into groups or singletons of requests whose representation of attributes can be satisfied by the same seller offering;

(ii) forming the combined abstract representation of the requests for the consortium, said representation which will satisfy each buyer in the consortium;  
and

(iii) constructing an artificial negotiating entity that will represent at least one consortium, and can conceal the identities of the buyers in the consortium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
